

CREATIVE AND COLORFUL CLAMSHELLS WORKSHOP

Unleash your creativity in our workshop focused on creating improv clamshell quilts. Dive into the world of improv and curve piecing techniques, and learn how to employ color theory to craft quilts that exude depth and movement. Join us for a fun and insightful class that will empower you to design striking quilts using these innovative methods.

In this class, students will learn the following:

1. The art of creating improv clamshells, including techniques for blending colors and shapes to craft visually striking designs.
2. How to master improv piecing and curve piecing techniques to bring depth and movement to their quilt designs.
3. Principles of color theory and how to apply them to create quilts that show dimension.
4. The skill of piecing together clamshells in a structured sequence to achieve a cohesive and impactful overall composition.

MATERIALS NEEDED

- Hue A :9 different values, 1FQ per value
- Hue B : 9 different values, 1FQ per value
- *If you plan to make a bigger quilt, bring a third analogous hue (9 different values, 1FQ per value). During the class you will understand that you can make this quilt growth as you go.*
- Hue A and B need to be close analogous Colors. See below for some examples.
- Double tracing wheel (I use this one <https://a.co/d/j6HE9id>)
- Small scissors with a sharp point
- Pins
- Fabric marker (erasable with water or chalk marker) and masking tape
- Rotary cutter (IMPORTANT=> with a new blade) and cutting mat
- Quarter inch foot
- Thread for sewing
- Sewing machine, iron, ironing board, design wall
- Notebook and pencil for taking notes
